

Teloi Mayana

Education

Phd - Precise gravimeter for inertial control

University of Liège and University libre of Bruxelles

September 2021 - ongoing

- Supervised by C. Collette, P.Lambert and A.Deraemaeker
- Funded by ERC Consolidator Grant

Master in Aerospace engineering

Institute of applied science - University of Liège

September 2019 - June 2021 Liège, Belgium

Bachelor in civil engineering

Institute of applied science - University of Liège

September 2016 - June 2019 Liège, Belgium

Experience

Master Thesis

University of Liège

February 2021 - June 2021

Imaging characterization of the radial-velocity brown dwarf HD 18757B, supervised by Mrs.Maire.

MySherpa

Private tutoring

October 2019 - Ongoing

- Scientific courses such as Chemistry, Biology, physics and mathematics for students.
- Russian courses.
- Programming courses in C.
- Industrial engineering 1st year

Echec à l'échec

Teaching scientific courses

July 2019, July 2020

Teaching physics and mathematics for students in 4,5 and 6 grades.

UStart

UStart Student Entrepreneurs Club

march 2020 - Ongoing

- Starting from the bottom, entrepreneurship contest
- Member of UStart, in the Sponsoring team

European BEST engineering competition

Board of European student of Technology

2017, 2018, 2019

Belgium

- Take part as a contestant in 2017 and 2019.
- Was part of the organisation team in 2018.

Programming languages & Software

C Python SQL Matlab
OpenMP MPI

Siemens NX ModelSim/Quartus
XFOIL OSLO

Strengths

Hard-working Communication skills
Highly motivated reliable
Eager to learn Leadership skills

French ●●●●●

Russian ●●●●●

English ●●●●●

Georgian ●●●●●

Extracurricular

Interest in Space exploration and exoplanets

Piano
11 years in academy

Swimming Team

Volley-ball

Comedy and poetic language courses
